JUN 27 1952 President Levis W. Jones New Brunswick, New Jersey

Dear Freeldent Jones:

Rutgers University

I am already deep in your debt for the loan of your Professor STAT

Estimates staff he has rendered great service to the Central Intelligence Agency, and to the national interest. Professor sound judgment and wide knowledge on issues of great magnitude make him indispensable to us at this time. It is for this reason that I feel justified in asking you to let us beep him for another year.

I realise that this imposes a sacrifice on you, particularly since, after leaving the Agency will be away from Rutgers through the academic year 1953-54, doing research on the grants already given him by the Ouggenheim Foundation and by you. However, it is my hope that, because of the importance of the work he is doing, you will be willing to extend his leave of absence so that he can remain with us until the surror of 1953.

Please accept my renewed thanks for your willingness to subordinate the needs of your University to the needs of the national omery cheve

Sincerely.
